AST Popcorn

About us

AST Popcorn is a Bulgarian company producer of Microwave popcorn – one of the companies with the biggest and most modern facilities and equipment for production of microwave popcorn in Europe. Our products comply with the regulations of the European union.

The company is certified according to the international food safety standard BRC by LRQA, as well as the Amfori Business Social Compliance Initiative (BSCI).

AST Popcorn has customers in most of the European Union countries, the UK, the Middle East, Japan, South Africa, North Africa, USA, New Zealand, etc.

We aim to expand the range of the supplied market chains and wholesalers in Europe and the rest of the world.

We offer a large variety of flavoured Microwave Popcorn and Popcorn bars at very competitive prices.

Smart Snack

Microwave popcorn

Ingredients: Popcorn

What can we do for you?

Private label

AST Popcorn can develop for you Microwave popcorn design that only you could sell. In compliance with your needs, the packaging may vary from 80 to 100 g, and only your company will have the rights to launch it. So you can offer better price levels than those leading brands of your competitors. We design and manufacture products for customers of high European level.

Launching products under private label would gain you personality in your development and will correspond to the increasing share of this product.

Our company can create for you private label at a lower price, but with higher quality compared with other brands, so you could win many customers. And we might create a product that is more expensive and carry more promises for quality to the customer. The brand is a name or a symbol used to identify the product of a company. By letting us create your product under private label, you will be sure that it will be recognized by already attracted customers.

Logistics

15 packs = 1 display box

6 display boxes = 1 carton

60 cartons = 1 EU pallet

33 EU pallets = 1 Truck

3 packs = 1 box

32 boxes = 1 carton
